

## FUNNY GUY

You might have it all together, and know what you want in a man and exactly how to get it. Then again, you might be just like the rest of us, constantly trying to figure out what guys mean, why they do what they do, and what they think about you. Following are some tips and useful info about the types of guys you're drawn to -- insights on their personalities, conversation starters and how to decipher their man-speak. Some are perfect for a first date, some are more appropriate once you're in a serious relationship, but we'll let you be the judge of that.

- 1.** If a guy can make you laugh, it is a hugely positive reflection on his personality. It shows he has a good personality and can make you feel good.
- 2.** Let him charm you with his humor, but be weary if he is doing some stupid stuff that makes him look like a joker. Make sure you're laughing with him and not at him.
- 3.** If a guy can make a woman laugh, he is actually releasing tension when out on a date with you, which will make you more comfortable being around him. This is your perfect chance to build the type of relationship and feeling with the man of your dreams.
- 4.** When dating the funny guy, you'll laugh a lot and learn how to go with the flow and let things slide. The funny guys are often quite spontaneous, which means you should be ready for anything!
- 5.** On top of being an attractive personality trait in a guy, making a girl laugh also has some subtle psychological effects that are like a magic wand when it comes to conversation, flirtation, and seduction. Pick up on these cues and go with it.
- 6.** The funny guy sure loves to laugh, set up a special date at a local comedy club, and try to get front row seats so he can get heckled by the comedians!
- 7.** Dating a funny guy sometimes is all not fun and games. If he makes a joke when you bring up a sensitive subject, he may not be the right guy for you. Relationships are a two way street, and you need to make sure that you can talk to him about anything.
- 8.** You may enjoy his sarcasm but when things get serious, can he handle it? While dating should be fun and light, serious moments will no doubt arise. The funny guy may use jokes and laughter as a way to ease the tension, but you need to encourage him to open up and be serious when the time calls for it.
